

CTO & Co-Founder of a venture – Berlin - (x)

Vertical Scale is a Berlin-based advisory company founded in 2017. Our client base ranges from startups and investment companies to corporates and universities. Besides buy and sell side transaction consulting, Vertical Scale offers various services from Business Development, Strategy Optimization and Technology Support among others.

For one of our current Fintech projects we are looking for a CTO and backend engineer to join our C-level management team.

Responsibilities:

- You will join the team as Project Manager for our venture
- You actively contribute to the development & growth of our venture
- You oversee and continuously develop the strategic planning of IT structures
- You evaluate and implement new technological solutions
- You are responsible for the architecture and development of our products
- As our technical expert, you represent the company in various contexts

Requirements:

- You are academically educated and have more than 5 years of team leadership and team development experience within the fields of software engineering, project management and R&D.
- You are fluent in the following programming languages: Solidity, Java, Python, JavaScript, Swift, MySQL.
- You bring along excellent knowledge and experience in the field of Internet technologies and protocols, such as PHP, HTML5, CSS3 and JavaScript
- You are an expert in scaling web applications.
- You have previously designed technical strategies and architectures for startups
- You are passionate about your work and constantly stay up to date with the latest technologies, innovations and trends.
- You have an entrepreneur mentality, creative problem-solving approaches and a high commitment.

We offer:

- A competitive salary & compensation package including stock options
- Flexible working hours
- A variety of challenges & wide-ranging projects
- A dynamic, open and inspiring working environment with flat hierarchies
- The opportunity to implement innovative ideas, to fully develop your own potential and to make a difference
- The opportunity to work directly with the founders
